

COLUMBIA COUNTY FIRE CHIEF'S ASSOCIATION, INC.

P. O. Box 94, WEST LEBANON, NY 12195

The Columbia County Fire Chief's Association, Inc. is happy to say we are continuing our Smoke Detector Community Support Program. This program was started many years ago to assist financially challenged individuals and families with smoke detectors to properly alert them in case of a fire. We are also pleased to say we also have a small supply of combination smoke/CO detectors as we have witnessed the effects of CO poisoning in Columbia County and know that Amanda's Law does require them to be installed in residential locations throughout our communities. For an individual or a family to receive a detector, the local fire chief is required to complete our application and return it to the address on the application for review by the association. If the request is approved, the requested detector will be delivered to the fire chief for delivery to the family. Please help to spread the word on this program so we can get these in the homes that need them.
